# Pairing your iOS smart devices with your blood pressure (BP) device

Once you've downloaded the latest version of the OMRON connect app from the App store, you'll need to unpair your BP monitor from the Bluetooth® Settings on your iOS smart devices.
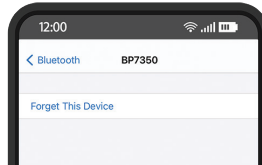

1

a. Open **Settings** on your smart device.

b. Open **Bluetooth®** by tapping on it.

c. Search **MY DEVICES** for a device that starts with **HEM** or **BP**.

d. Tap on the ⓘ icon to the right of the device.

e. Tap on **Forget This Device**.
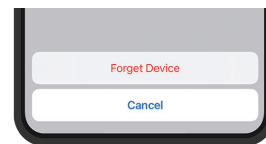

**f.** Confirm by tapping on the **Forget Device** button.

The *Bluetooth®* word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by OMRON Healthcare, Inc. is under license.

2 **Now open the OMRON connect US/CAN App.**

a. Tap on the ➕ icon, then the **Profile** icon.

b. Now select **Connected Devices** and tap the **Add new device** button.

c. Select **All OMRON Blood Pressure Devices**.

d. Tap on the **Next: Pairing** button.
