

EMBARGOED FOR RELEASE: January 4, 2016

Omron Healthcare Project Zero
Wrist Blood Pressure Monitor Fact Sheet

Omron Healthcare Project Zero Wrist Blood Pressure Monitor (BP6000)*

Project Zero Wrist Blood Pressure Monitor

- **Smallest, lightest, quietest** clinically-accurate blood pressure monitor ever
- Project Zero Wrist Blood Pressure Monitor goes beyond blood pressure readings to provide **highly accurate** physical activity and sleep data **in real time**
- Real time blood pressure readings with no hoses, wires, or cuffs, helps your doctor provide more insightful care
- Encourages users to stay engaged, conveniently recording for when medicine is taken, and offering timely reminders to reinforce positive behaviors
- Portable, mobile and works seamlessly with the Omron Connect app so you are **always connected to your heart health**
- **MSRP (TBD)**

Omron Healthcare Products

Omron Healthcare clinically validated blood pressure monitors are built for people with a strong desire to improve their overall health and quality of life
